PRIVACY REQUIREMENTS

Insurers and their producers have legal obligations to keep the nonpublic personal information of their insureds confidential and safeguarded. The federal **Gramm Leach Bliley Act** (GLBA), state insurance laws, and the **Health Insurance Portability and Accountability Act** (HIPAA) Privacy Rule obligate Ameritas and its producers to keep the nonpublic personal information of our customers and insureds private.

Ameritas has recently revised its GLBA notice of privacy practices to provide additional protections and to state our privacy policy more clearly. The law requires us to provide a notice of our privacy practices to our group policyholders at the time the coverage is initially placed and once a year thereafter. This will serve as a reminder that our producers are required to comply with these privacy laws and the Ameritas statement of privacy practices. This means that the nonpublic personal information of individuals resulting from the insurance coverage issued by Ameritas may only be disclosed by Ameritas and its producers as allowed by the statement of privacy practices. More specifically, this information may not be disclosed to third parties for the purpose of marketing non-Ameritas products and services.

The HIPAA Privacy Rule mandates even more stringent privacy and security protections for an individual's protected health information. These requirements apply to both Ameritas and you as our producers. That is why Ameritas requires producers to sign HIPAA Business Associate agreements. We appreciate your help in protecting the privacy of our insureds. If you have any questions about privacy requirements, please call the UNIFI Privacy Office at 1-888-284-7844.
